

STI Thermostat Protector

STI-9115

PRODUCT OVERVIEW

Once you set your circular-type thermostat and install this super tough cover, there are no more worries about tampering, vandalism or accidental damage. It is molded from clear, thick polycarbonate material and is installed with tamperproof screws for added protection.

BACKED BY A THREE YEAR GUARANTEE

As all STI protective covers, the Tamper Stopper Thermostat Protector (STI-9115) carries a three year guarantee against breakage in normal use. It is UV-stabilized against discoloration and slots around the circumference allow air to circulate freely for proper operation of the thermostat. Installation is quick and easy. The cover is shipped complete with tamperproof spanner screws, anchors and a spanner bit. STI also offers Thermostat Protectors for vertical-type thermostats, mini thermostats and energy sensors.

FEATURES

- Protects against tampering, vandalism and accidental damage without affecting operation of the thermostat.
- Slots around the circumference allow air to flow freely for proper operation of the thermostat.
- Molded from clear, super tough polycarbonate material.
- Installed with tamperproof screws as an added protection.
- Especially useful if the thermostat is located in a public area.
- Typical working properties of polycarbonate are -40° to 250°F (-40° to 121°C).
- One of a complete line of STI shields to protect virtually all thermostats, mini thermostats and energy sensors available today.
- Fast and easy installation.
- Three year guarantee against breakage of polycarbonate in normal use.
