

LEVITON®

## Porch and Landscape Lighting Control Upgrade Featuring Vizia RF +™

**Problem:** Outdoor lights consume energy  
**Solution:** Vizia RF + wireless lighting controls

### Create Stunning Curb Appeal and Improve Security at Night

When the sun goes down, play up your home's surroundings with controlled lighting. Vizia RF + wireless devices give you the power to vary light levels for comfort, energy savings and security. You can brighten entrances, highlight landscaping and increase peace of mind while away. Customize your porch lights to turn on at dusk, off at dawn, or at specific times. The optional zone controller is your key to one-button control of all outdoor lights from anywhere in the home.

### The Solution Simplifies Your Lifestyle

The Vizia RF + Porch and Landscape lighting control kit easily replaces the need for individual timers around your home. Automate indoor switches to control exterior lights, low-voltage landscape transformers and more. Coordinate all to turn on simultaneously or set for different times. And when daylight savings time arrives, just change one clock in the handheld remote and every device is updated automatically.

### Solution Benefits

- Sets schedules for outdoor lights
- Enhances safety, makes your home look occupied
- Saves energy by dimming lights late at night
- Controls landscape lighting features by remote
- Speaks Z-Wave®

### Installs in most new or previously owned homes

Leviton recommends installation by a professional installer or licensed electrician for optimum performance.

vizia rf +™

# Porch and Landscape Lighting Control Upgrade

The Vizia RF +™ Porch and Landscape Lighting Control Upgrade will add value and comfort to your home.

## This solution requires these components:

Some installations may vary due to previously installed components. Check with a professional installer for specific configuration options.

### RF Handheld Remote Controller Programmer/Timer

The brains behind the scheduling of timed events, this handheld remote controller includes a built-in astronomical timer/clock. Compact and convenient, it provides the capability to program the system and group lights together for any application. Additional features include scene creation, room-to-room profiles and more. It includes rechargeable batteries, stand and charger.

**Leviton requires at least 1 device per household. (Cat. No. VRCPG-0SG)**

Quantity

### 4-Button RF Zone Controller for Multi-Location Control with IR Remote Capability

Control multiple exterior lights and landscape circuits from a single location and with the push of a button. Assign up to four custom combinations of lighting circuits and control from one location for convenience. Ideal for virtual 3-way applications.

**This item is optional for this application. (Cat. No. VRCZ4-1L)**

*Note: Button labels are sold separately as an additional option. (VPZLB-ZAW, in white)*

### 600W Incandescent Scene Capable Dimmer

All dimmers offer energy savings, but this one provides wireless control and scene capability for a winning combination. Wireless technology links each dimmer to the wall-mounted controller. Designed for incandescent outdoor lighting loads so you can decrease power consumption in the early morning hours and save energy. It includes an LED locator light and elegant push pad that make operation as easy as a tap.

**Leviton recommends at least 2 devices for this application. (Cat. No. VRI06-1L)**

### 15A Scene Capable Switch

When you need to control non-dimming loads, such as low-voltage landscape lighting transformers, waterfall pumps, underwater lights, post lights and outdoor floodlights, this RF switch is the best solution. LED locator light makes it easy to find in the dark.

**Leviton recommends at least 2 devices for this application. (Cat. No. VRS15-1L)**

## Other solutions and options are available to expand and upgrade your system. Ask your installation professional for suggestions.
